

Environmental Policy

Our environmental management system is focused on environment-friendly business behaviour.

For the purpose of achieving our intentions in the field of quality management, we:

- take measures to save energy, water, heat, and fuel;
- reduce paper use and recycle the used paper;
- have identified various types of waste and ensure proper disposal thereof, making sure that municipal waste is separated from hazardous waste or waste which might contain hazardous chemicals;
- identify and comply with the binding external regulatory requirements in the field of environmental protection;
- analyse our performance in the field of environmental protection to identify areas for improvement and to improve the environmental management system.
